Institution

SINCE1993

MJRP Institution emerged in 1993 as a world renowned center for imparting education. In 2008 we established our own university at Achrol Jaipur, to foster women education in Rajasthan. The name of the organisation was given in the memory of a social reformer "Mahatma Jyotirao Phule" who worked for the emancipation of women. A major mile stone in the history of MJRP is the conferment as a co-educational university sprawling over 110 + acres of land at Jaipur-Delhi highway. This University is Rajasthan's first private University which is recognized by Department of Scientific & Industrial Research (DSIR) as Scientific Industrial Research Organization (SIROs). It has collaboration with Macmillan Research Group UK, providing international scholarship opportunities and co-publication.

MJRP aims to work with the concept of Gurukulam which focusses on "Guru Shiksha Parampara" to develop a rapport among Mentors & Students. We are Re-stablishing the concept of quality and valuable education by using Modern techniques, Committed towards prompting excellent education with Professional competence by inculcating Social values.

An Investment in knowledge

Pays best interest - Benjamin Franklin

"Education is not the learning of facts, but the training of the mind to think – Albert Einstein"

Our Vision

To impart quality education technically & academically which helps our students in expanding their potential to become productive, responsible, creative & compassionate members of our society.

Our Mission

To inculcate academic excellence & core values among students through innovative methods & learner centered activities which makes them globally competent & aspires to make difference to the society.

Dream it. Do it.

YOGA & Vedic Science

Derived from the Sanskrit word, yuj Yoga means union of the individual conscious or soul with the Universal consciousness or spirit. Yoga is a 5000 years old Indian body of knowledge. Though many think of Yoga only as a physical exercise where people twist, turn, stretch and breathe in the most complex ways, these are actually only the most superficial aspect of this profound science.
