

Mahatma Jyoti Rao Phoole University, Jaipur

“Educating Tomorrow’s World Leaders, Today”

ANNUAL REPORT-2023-2024

University-At a Glance

Mahatma Jyoti Rao Phoole University was established in 2009 at Achrol sprawling over 100 acres of land at Jaipur-Delhi highway with a mission to impart women education in Rajasthan. The name of the organization was given in the memory of a social reformer Mahatma Jyoti Rao Phoole, who worked for the emancipation of women. The organization is working on the same principle of women education & empowerment. This green, energy efficient and eco-friendly campus design goes beyond just the buildings. Beautiful landscaping, choice of shrubs and trees, water harvesting and recycling and waste management practices are in line with a Green Campus. Rainwater harvesting will ensure that each drop of rain is conserved.

Mahatma Jyoti Rao Phoole -a name to reckon within education sector had started its journey with a single faculty in Arts in 1993 and then spreading its wings to science and commerce faculties. Today, MJRP aims for the advancement of knowledge & education through excellence and leadership in Engineering, Science, Arts, Commerce, Management, Information technology, Law, Agriculture, Home Science, Fashion Designing, Education, Health Care Science, Allied Sciences Journalism and related areas. The institution with various educational colleges has made astonishing strides in the field of education during the short span of time. MJRP University is Rajasthan’s first private University which is recognized by Department of Scientific & Industrial Research (DSIR) as Scientific Industrial Research Organization (SIROs). MJRP University is the first private university of Rajasthan which started five year integrated course in Agriculture (B.Sc Hons + MBA), Law course for Women, UG & PG courses in Microbiology & Bio-Technology in his campus.

The teaching and research faculties of the University have highly qualified professionals, trained in their specialized areas.

Infrastructural Facilities

The University has an extremely modern and state-of-the-art infrastructure that goes a long way in facilitating a number of services for the students as well as the staff members. The design of the campus demarcating different zones –Residential, Public Buildings and the Academic blocks breaks the monotony with a transitional space and experience.

Class rooms: The spacious well-furnished and airy classrooms with internet connectivity are well equipped with Hi-tech multimedia and audio-visual equipments to facilitate effective learning.

Laboratories: The University has well-equipped separate laboratories for each faculty and specialized laboratories. All the labs are spacious, scientifically planned, well-equipped with modern sophisticated equipment and apparatus. The laboratories are managed by trained technicians.

Achrol, Jaipur, Rajasthan

Mahatma Jyoti Rao Phoole University, Jaipur

“Educating Tomorrow’s World Leaders, Today”

ANNUAL REPORT-2023-2024

Computing Facility: University has good computer labs, with the latest computing facilities and high-speed internet connectivity. The University has 5 computer labs with over 500 computers and 25 MBPS 1:1 network. All labs are equipped with the latest Hardware & Software for the upgradation of education and upliftment of research for students to meet the challenging needs of the IT sector. Also, the University is the Remote Centre of NITTTR Chandigarh for telecasting educational programs through ICT.

Library: The libraries are the academic lifeline of the University. Libraries are open for twelve hours a day and accommodates a large number of students in its reading and referencing halls. We have four libraries in the University. A good collection of reference and text-books and journals of national and international repute is available for the students. The library subscribes to both national and regional newspapers and magazines and journals for the benefit of students and general readers. The library, in addition to text book, caters for general reading and has a special section for books and journals for competitive examinations. The students have access to the online e-learning portal for integrated learning including NPTEL. This facility is provided to all the faculty members and students of the University.

The University has gone ahead in making the concept of digital library functional with availability of digital content to enhance the firsthand knowledge of the students. The University’s library has a Book Bank Scheme for both UG and PG students, in which a set of text books are loaned to the students for use, during the academic year.

Hostel- We provide a decent stay and the best possible learning environment for students. The stay at campus would certainly provide a wealth of experience by developing qualities such as comradeship and social responsibility. **MJRP University** provides separate hostel for boys and girls. Each hostel has spacious and semi furnished rooms offering a pleasant environment. The hostels are well-equipped with Wi-Fi facility, water purifier, water cooler and provision for indoor as well as outdoor games. These hostels also have home like dining facilities that offer fresh & nutritious food to the students. Hostels give an environment to create most effective conditions for student development. The hostels are located within the campus thus offering secured abode. On-campus residential facility for students has been very thoughtfully designed and planned. The

hostels are comfortable and conducive for the students to have a productive campus life, providing a perfect setting for academic pursuits.

The hostel also provides recreational facility like indoor and outdoor games, T.V. etc. Special guidance in health through yoga and meditation keeps the students fit and strong.

Cafeteria- With exquisite interiors and exotic menu, a well-furnished and spacious cafeteria is located in the heart of the campus. Most of the day, the canteen is chock-a-block with patrons looking to grab a delicious snack, a refreshing cup of coffee or a cold drink to beat the heat. In the late evenings, the canteen acts as an alternate eating place for those desiring a change from the regular mess food.

Games & Sports Facility- The University has provided for sports enthusiastic a well equipped Gymnasium, Football ground, Three Basket Ball court & Volley ball courts, Badminton court and indoor facility for Table tennis. We also provide professional guidance and coaching for specific sports for interested students.

The University is member of Association of Indian Universities and Many Zonal & National Tournaments like West Zone Table Tennis Tournament (Women) etc. also University teams participate in various national and international tournaments of different games.

Health Care- The health care centre facilities for the students are provided by a multi facility 24/7 hospital near the University campus which provides treatment at a nominal cost. Apart from that, MJRP University has a dedicated General physician and a First aid medical center.

Moot Court: The students of law are given practical training through moot court activity. It is mandatory to take part in the moot court every student and it is the quickest and most effective way of acquiring the skills of a lawyer.

Schools and Departments

Arts/ Humanities

6.	B.Com + M.Com	4 Yrs
7.	B.com + MBA	4 yrs
8	B.Com in E-Commerce	3 Yrs

Computer Science

Taking a computer science course will mean you will be studying a subject at the very forefront of technology and innovation.

Most computing courses tend to focus on software engineering - things like database design, network systems, computer hardware and the internet. But there are other options in this field, such as virtual reality, artificial intelligence, cybernetics, and multimedia and games design, and apps design.

You'll spend your time in lectures, seminars and practical workshops. You might also be required to give an idea for a project and develop this as part of your course. Lots of computing and IT graduates get jobs in the industry in technical fields, such as computer operations, computer systems sales and service, programming, software development, software engineering, or find work as analysts and programme writers. This could mean working in specific IT firms or in companies outside the industry that use computers as a core part of the job.

MJRP Academy of Law

MJRP Academy of Law not only provide simple degree courses in Law but make the students self-esteemed and self-confident so that they can compete and justify the theory of “Survival of the Fittest”. Law here is not just merely a theoretical study of legislations it is seen as “Dharma” which holds the society. Under disciplinary stand points the students are able to understand the basic approach of law and the intentions of legislation makers.

We create a generation of able, competent and humane lawyers who will not only enter the Bar and Bench but will also be equipped to address effectively the imperatives of the new millennium and to engage in community services and to promote cultural, legal and ethical values with a view to promote and foster the rule of law and the objectives enshrined in the Constitution of India.

“Educating Tomorrow’s World Leaders, Today”

ANNUAL REPORT-2023-2024

The world has witnessed a phenomenal and unprecedented explosion in communication technology and media. All boundaries have been transcended and the entire global community seems to have been brought together into one unified whole. And it is here that mass-communication, as a stream of study, and as a career, becomes so important and enviable.

Mass Communication is not limited to journalism alone. To a great extent mass media is a modern reality which covers all aspects of human life. Moreover, a great change can be observed in the concept of people working in mass media. The opportunities that were earlier regarded as mere hobbies have become full time career options. Careers in Mass Communication are not only high paying but also bring in a great deal of job satisfaction and expression of creativity.

Literary and cultural

MJRP university is committed to develop literary skills of the students to help students to build their literary skills and achieve excellence in languages. University is organizing various literary activities. The major emphasis is on all the four language skills *i.e.*, Listening, Speaking, Reading and Writing.

The inter-house competitions are being organised regularly which help the students to develop individual talents, gain confidence. The activities make learning interesting and fun-filled.

Games and Sports

Games and sports are essential to develop the students physically as well as mentally. In addition to that, games and sports are known to develop the students holistically. They enhance the personality of individuals by imparting various traits in them.

Sports are said to boost alertness, discipline, team spirit, mental ability, confidence and concentration of a student. It doesn't matter what kind of sports the students are playing and whether they are winning or not. Every sport will always inculcate some amazing traits in them. In university and colleges sports play a key role in moulding the students. These give mental relaxation to the students from their hectic schedule. Furthermore, sports develop students into well-balanced individuals. Keeping these aspects games and sports at MJRP university is regular event. During the period number of games and sports were organized.

In modern era education is not just confined to imparting academic knowledge to the students. However, it is more about holistic development. The parents want their children to develop into winning personalities with a global perspective. They want their child to be a ‘perfect’. The MJRP university is regularly organizing such events to mold the students holistically by exposing them to an array of activities along with academics. Cultural activities play a key role in the overall personality development, instill confidence in students and foster a better understanding of the surroundings.

NSS Activities

Mahatma Jyoti Rao Phoole University, Jaipur

“Educating Tomorrow’s World Leaders, Today”

ANNUAL REPORT-2023-2024

National Service Scheme (NSS) is sponsored by the Government of India and is conducted by Department of Youth Affairs and Sports.

The aim behind the program of NSS is to provide help to everyone who needs it, to enhance and bring a better change in the standard of living and the way they lead their life with dignity.

National Service Scheme (NSS) is beneficial to both students as well as the society in various different means. NSS helps the student to grow individually and also as a group. It makes the students confident, develop leadership skills, and gain knowledge about different people from different walks of life. Students also learn other skills that help them lead a better life in various situations. It teaches you to be disciplined and organized with the objectives you set for yourself and your goals.

Educational tour

Students gain a better perspective of the world around them by going on educational tours as they are brought in direct contact with new situations which prepare them for facing challenges in their upcoming professional lives. The importance of taking the students out of the classroom to absorb, interact and be immersed in history and educational tours have several learning benefits for students to obtain practical information. Educational trips provide valuable educational opportunities away from the classroom, without using textbooks and other tools which are used in a normal setting. Also, leaving the classroom for an educational tour places the students in a different social environment. They encounter a new set of folks during the course of the average field trip. These interactions teach them how to behave in different environments. They learn more self-control and communication etiquettes. It creates a sense of teamwork and community among the students as they experience a field trip together.

Placements

The primary objective of the university placement cell is to place all eligible students in reputed companies, right at the campus itself. Placement cells help identify the knowledge, skills and attitude matrices of the students coming from all walks of lives and

create job profiles for each of them to get them placed in relevant profiles with reputed companies. These placement cells recognize the areas of training and methods with respect to the requirements of the industry and thus formulate a sequence of training activities to meet the requirements for campus placement.

Convocation

A convocation ceremony holds a very important place in every student’s heart. It is that day in the academic life of the students when all the hard work, dedication, commitment, and enthusiasm pay off. It is a proud day for a lot of parents because their not-so-little kids get their hard earned education degrees.
